- BFW™ 1000: Racon™ Headphone System

TESTIMONIAL

"I love them!!! It gives me the freedom to move around without the worries of not hearing my surrounding while listening to my favorite music. It also helps me when I am at home cleaning and I want to listen to music and my son is roaming around playing I can still hear him and make sure he doesn't get into any mischief. Great quality of a product from durability and sound."

- **Thomas Silvera, CST**
